

Architectural Modifications Requirements & Procedure

Before making any changes to the exterior of your home, all homeowners must obtain a written approval from the architectural control committee or Board of Directors. The process helps ensure that the community property values are preserved.

Each community has its own set of guidelines and instructions to obtain an approval from the Association. Please make sure to review the application in detail and provide the necessary paperwork. It is important for the contractor to provide a valid license and current insurance both for the homeowner’s and the Association. The contractor is also required to provide a detailed scope of work.

Once the application has been reviewed, signed by the owner and contractor, the completed form needs to be emailed to lidoisles@blueshieldpm.com along with the **supporting documents**. As part of the application process your homeowner payment(s) need to be current and all violation must be closed prior to obtaining an approval. The HOA has thirty (30) days to review the application which the completed application is received by the property management company.

To obtain a copy of the Association governing documents, please visit the www.blueshieldpm.com, under “HOA Forms” you will find “Governing Documents” that are printable.
